– B SIMMENTALS
MIKE & KATRINKA BARTUSH

Welcome

We are positive about the beef industry and what lies ahead for the hard working cattleman. The tools are in place to make genetic progress in beef operations. The market is signaling a need for cattle to be harvested at heavier weights and a higher percentage grading choice. Our country is the source of the world's finest beef that meet high standards which includes marbling and taste. We must not forget we are in the beef business. We need to recognize it is essential to improve muscle and yield in our nation's cattle. Enough muscle is important for improved efficiency in the pasture and all the way to the grocery store. We are in the protein business and must become more efficient to overtake our competitors in the efficiency race.

The Cattleman's Kind Simmental Group

Testimonials

"We have been using Cattleman's Kind bulls for 10 plus years. Conception rates have consistently been in the 95% range. Weaning weights have increased, even though birth weights decreased. The quality of our calves has improved, and they are very marketable. The bulls have worked well in our environment, in Throckmorton County."

Rick Ward, Mgr. Cooper Ranches
Throckmorton, TX

"I have been purchasing bulls from the Cattleman's Kind bull sale for several years. To say I am pleased would be an understatement. These bulls have outperformed all the other bulls we have tried in the past. We run these bulls in big rough country and they consistently have held up and out worked other bulls. Our conception rates have improved by several percent and we have seen our average weaning weights increase by more than fifty pounds. These bulls are the best value I have found. We look forward to using these bulls for many years to come."

Brooks Jobe, El Paso Industries, Kent, TX
Kent, TX

"We have bought bulls from Cattleman's Kind from this group for 20 years. We never buy the high selling bulls. But it works, because there are good bulls throughout the sale."

Ronnie & Brandon Mabery, Mabery Farms
Tolar, TX

Sale Information

SALE DAY PHONE & ONLINE BIDDING AVAILABLE THROUGH
Jordan Cattle Auction: 325.372.5159

LOCATION

Jordan Cattle Auction San Saba, TX

DATE & TIME

Thursday, March 4, 2021, 10:00 am

If you are unable to attend the sale for personal or safety reasons due to COVID-19 then you can use the online auction for the sale or give us a call and we can assist you with your purchases. Thanks for understanding as we try to do the best of our abilities in this unique time.

Bulls are being developed at the Genetic Development Center, Navasota, TX. Bulls can be viewed prior to the sale. In the development of our bulls this year we **collected feed efficiency data**. This data can be used in a terminal program or in female replacement selection. When studying the **feed efficiency data (RFI)** look for the lower value (lower is better).

The Cattleman's Kind Simmental Group is pleased to offer you this outstanding set of SimGenetic bulls.

Ultrasound data for IMF, REA, ADG and RFI will be available on a supplement sheet sale day.

Also, the bulls will be available for viewing at Jordan Cattle Auction from Tuesday, March 2nd through sale day morning on March 4, 2021.

ALL BULLS HAVE BEEN TESTED NEGATIVE FOR BVD-PI, TB and Bangs.
ALL BULLS ARE TESTED OR PEDIGREE FREE OF KNOWN GENETIC DEFECTS.

Some bulls in the sale have been genomically tested and will be identified in the catalog with the DNA logo.

Bull Buyer's Guide to

.....AMERICAN SIMMENTAL ASSOCIATION EPDs

CE – Calving Ease:

Percent of unassisted births from two-year-old heifers; the higher the value the better

BW – Birth Weight

Pounds of birth weight; the lower the number is better

WW – Weaning Weight:

Pounds of weaning weight; the higher number the more lbs weaned

YW – Yearling Weight

Pounds of yearling weight; the higher number more lbs at yearling

MCE – Maternal Calving Ease:

Percent of unassisted births in first-calving daughters

MM – Milk:

Pounds of weaning weight due to milk and growth.

DOC – Docility:

Estimate of animal's temperament

CW – Carcass Weight:

Pounds estimates the average difference in carcass weight

YG – Yield Grade:

Tenths of a yield grade

Marb – Intramuscular Fat:

Percent of marbling score of %IMF

BF – Back Fat:

Inches of fat thickness

REA – Ribeye Area:

Square inches of ribeye

API – All Purpose Index:

Evaluates sires for use on the entire cow herd (bred to both Angus first-calf heifers and mature cows) with the portion of their daughters required to maintain herd size retained and the remaining heifers and steers put on feed and sold grade and yield.

TI – Terminal Index:

Evaluates sire for use on mature Angus cows with all offspring put on feed and sold grade and yield.

Sale Terms & Conditions

ANNOUNCEMENTS: All announcements and changes made by the auctioneer will take precedence over printed material.

TERMS: Terms of the sale are cash or check. Settlement must be made the day of the sale prior to moving the purchased bull/s. Checks shall be made payable to Jordan Cattle Auction.

BIDS & DISPUTES: Each animal on which there are two or more bids will be sold to the highest bidder. The auctioneer will settle all disputes as to bids and his decision shall be final.

PURCHASER'S RISK: Each animal will be the purchaser's risk as soon as it is sold, but it will be the responsibility of seller to see that it is fed and cared for until it is loaded or until the expiration of 24 hours, whichever comes first. We guarantee the animals to be healthy sale day.

CERTIFICATES OF REGISTRY: A certificate of registry and transfer will be furnished on each animal sold.

BREEDING GUARANTEE:

- Bulls will be given a Breeding Soundness Exam (BSE) by a licensed veterinarian prior to the sale. Only bulls which pass their BSE will be offered in the Cattleman's Kind Sale.
- Bulls are guaranteed to service cows. After turn-out, any bull that settles cows by natural service or passes a fertility test made by a certified veterinarian mutually agreed upon by the seller and buyer shall be considered a breeder. This guarantee applies for four (4) months following sale date. In the event a bull is not a breeder, he will be replaced or credit will be given on another bull. Note this does not cover death.
- The following exceptions apply to all breeding animals sold at the Cattleman's Kind Bull Sale, or private treaty by the three members (breeders):
 - Animals put in service or bred at less than 12 months of age
 - Injury or disease or death to the animal occurring after the sale
 - Gross negligence or misconduct on the part of the buyer

MORTALITY INSURANCE CAN BE OBTAINED THROUGH:

Jame Secondino-Krieger, Universal, IN 812-208-0956

LIABILITY: All persons who attend the sale do so at their own risk. Neither the sellers, sale management nor any person connected with the management of the sale assumes liability, legal or otherwise, for the safety of the building or premises or for the behavior of the animals.

CONTRACT: The above terms and guarantee shall constitute a contract between the buyer and seller on each animal sold and shall be equally binding on both. Any resale of an animal constitutes a separate transaction.

HEALTH: All bulls have passed a complete breeding soundness evaluation which includes examination for physical soundness, scrotal circumference measurement and microscopic evaluation of semen. Tested negative for BVD-PI, Trich-free, virgin bulls.

Suggested Guidelines

FOR USING YEARLING BULLS

We are firm believers in the use of yearling bulls and feel it is one of the best years of their lives. It is a time when they are easy to manage and their only concern is breeding cows. We have found that yearling bulls that are managed carefully during the second year of their lives, not only do well, but they will perform better, over time. Below are some suggested guidelines for the care of yearling bulls.

- Upon delivery to your ranch, keep yearling bulls separate from older bulls and feed them a maintenance ration of 5-8 lbs. per head of grain and free choice hay. Reduce the amount of grain fed gradually, so that bulls are on straight hay or grass two to four weeks prior to the breeding season.
- Where possible, try to limit the bulls to 45-60 days of pasture service the first year. At this time or as soon as possible remove the bulls and put them in separate pastures with plenty of good quality grass.
- It is best to feed yearling bulls separate from older bulls until after their second breeding season. This allows them to achieve the growth and strength to compete with older bulls for feed and space.
- You will see the benefit of a little added cost and care of feeding a yearling bull by probably two or three more years of service from a well-managed and healthy bull.

This set of bulls was developed on a high roughage diet.

- Please remember you can't compare EPDs between breeds. -
